CSI Homes
PO Box 138
Cambridge, IL

To Whom It May Concern:

CSI built our new home this year. Mr. Casteel took a drawing of the way we wanted the home designed and developed a home exactly as we wanted it. The construction crews, although hampered by wet weather and the lack of a street to the job site until very late in the process, were very methodical and professional in their work. They were very pleasant and consulted us when anything needed to be clarified so that the work could be done to our satisfaction.

We have lived in the home since September of this year and have been amazed at the quality of the work. Even things for which we did not specifically ask were included simply because they were better quality than average. We believe that nothing was done to minimum standards. Everything installed is of high quality, and the installation is done very well.

We have had many people in our home, and they have unfailingly expressed approval of the solidity of the work and the attractiveness of the dwelling. I would unhesitatingly recommend CSI to anyone contemplating the construction of a new home.

Sincerely yours,

Steven A Taylor
